

FACULTÉ DES SCIENCES

Symposium: Neutral Theory of Molecular Evolution

Thursday, December 15th 2011, 13h30 - 18h00
Sciences II, room A300, University of Geneva

木村 資生

Motoo Kimura
Father of the Neutral Theory
of Molecular Evolution

Speakers:

Prof. Naoyuki Takahata

The Graduate University for Advanced Studies (Sokendai), Hayama, Japan
« The Current Status of the Neutral Theory of Molecular Evolution »

Prof. Michael Lynch

Indiana University, Bloomington, USA
« Near Neutrality: the Mutational-Hazard Theory of Genome Evolution »

Prof. André Langaney

University of Geneva, Switzerland
« Markets and Gods don't like neutral evolution! »

Discussants:

Prof. Laurent Excoffier

University of Bern, Computational and Molecular Population Genetics Lab

Prof. Michel Milinkovitch

University of Geneva, Department of Genetics and Evolution, LANE

Hosts:

Prof. Alicia Sanchez-Mazas, Dr Estella Poloni, Dr Mathias Currat

University of Geneva, Department of Genetics and Evolution, Anthropology Unit
